

Bridges To Knowledge

It is my great pleasure to invite you to the 2005 Florida Health Sciences Library Association annual meeting to be held in Jacksonville, FL on April 20-23, 2005 along the St. John's River and overlooking six of the seven bridges in the city of Jacksonville.

This year's program aims to provide a bridge to a higher level of knowledge. Our continuing education courses have been chosen with you in mind since a recent survey indicated your interest in communication, public health and technology. Please look at the full description of each course. Please look at the full description of each course.

You will have several opportunities to mingle with colleagues: the banquet, morning buffet breakfast, CE courses, and the River Walk. Our invited speakers will enlighten you and make you smile. I promise.

On Friday, we have a session called "Keeping Up-To-Date with FHSLA" at which the Executive Committee and Strategic Planning Committee will present the results of their close collaboration this past year updating our Bylaws and Policy and Procedures. Your vote on the proposed changes will be important as the Association moves forward. A copy of the revisions will be posted on the website <http://www.library.health.ufl.edu/fhsla/> in early April.

I would like to take the opportunity to thank the many people in Jacksonville as well as in Gainesville who have helped me in organizing this annual meeting. I couldn't have done this without them. There is a lot of pride in being a FHSLA member. Let's continue the tradition by enjoying this year's meeting.

Sandra L. Canham

Vice President, Program Chair
