CE CLASS DESCRIPTIONS AND INSTRUCTOR BIOGRAPHIES

Geeks Bearing Gifts: Unwrapping New Technology Trends

Wednesday, April 5, 2006 – 1:30 pm - 5:30 pm (FSU-van leaves hotel at 1:00 pm; parking at University is to be avoided!)

4 hours (4 CEU) - \$70.00

Instructor: Dale Prince

This class is intended to provide a fun, fast-paced, and informative introduction to and update on today's hottest technology trends. Program participants will be able to identify technology trends and they will understand how these trends will impact or can be integrated into traditional library services. Content will be presented with a "can-do" focus intended to encourage participants to investigate at least one technology for implementation in their institution. Course structure will include brief vignettes and demonstrations of a wide variety of technologies. Some of the topics to be covered include instant messaging, podcasting, open source software, spyware and other malware, developments in mobile computing, blogs and wikis, radio-frequency identification, and more. The hands-on class is 4 hours.

J. Dale Prince, MA, MLS, AHIP, is Technology Coordinator for the National Network of Libraries of Medicine, Southeastern Atlantic Region located at the Human Services Library of the University of Maryland, Baltimore. Dale provides Internet and technology instruction to medical librarians and health professionals within the region, as well as training and outreach for a variety of National Library of Medicine programs and services. Mr. Prince has 14 years experience as an instructor and trainer and five years of experience as a medical librarian. He received his Master of Library Science from Indiana University, is a member of Beta Phi Mu and the Academy of Health Information Professionals.

Disaster Preparedness

Thursday, April 6, 2006, 8:00 am – 3:30 pm

6 hours - \$55.00 (A superb opportunity! Solinet usually charges \$225.00 for this course!)

Price renegotiated due to funds available from National Endowment for the Humanities, Division of Preservation and Access!

Instructor: Tina Mason

Libraries and archives are vulnerable to a variety of disasters. Fire, smoke, flooding, burst or leaking pipes have damaged collections -- learn what you can do to prevent and minimize unnecessary loss. Librarians and archivists must be prepared to handle both minor incidents and large-scale emergencies. This requires that institutions have knowledgeable staff and written plans for dealing with emergency situations, so that fewer disasters occur and damaged materials can be salvaged successfully. Library staff must also be trained in proper recovery techniques and procedures.

This one-day class will provide the training necessary to plan, organize, and execute a disaster plan and a salvage operation. In addition to in-depth discussion on the disaster planning process, there will be demonstrations of salvage techniques.

Tina Mason Tina Mason is the Manager of Preservation Services at the Southeastern Library Network (SOLINET). She was promoted to manager in October 2005 after serving as the Preservation Field Services Officer, then the Preservation Education Officer for nearly 7 years. She received an MLIS and a Certificate of Advanced Study in Conservation from the University of Texas at Austin. Prior to joining SOLINET, she spent a year working in the Book Conservation Lab of the Smithsonian Institution Libraries. She lectures on a wide range of preservation topics and is active in the ALA, Preservation and Reformatting Section, the American Institute for Conservation, Society of American Archivists, and the Society of Georgia Archivists.

Copyright Issues Faced by Medical, hospital and Health Sciences Librarians

Thursday, April 6, 2006 – 8:00 am – 12 noon

4 hours (CEUs pending) - \$70.00

Instructors: Michelle Foss & Lori Driscoll

This class will cover the practical applications of copyright, fair use and the TEACH Act and how you can apply it to your library setting. Discussion of copyright 107, 108, 109 and 110 will be presented. Interactive scenarios on how to provide copyright information to your patrons will be presented.

Michelle Foss is an Assistant University Librarian and Head of Interlibrary Loan for the University of Florida Smather's Libraries, where she manages the functions of operations of interlibrary loan, and copyright clearance. Michelle is the previous Assistant Director of Access Services at the University of Florida Libraries Health Science Center where she managed copyright clearance, electronic reserves, circulation and interlibrary loan.

Lori Driscoll is an Associate University Librarian and Chair of Access Services for the University of Florida Smather's Libraries, where she manages the functions of course reserves and copyright clearance, circulation, interlibrary loan, stacks maintenance, and the remote storage facility. She has taught undergraduate information studies courses, facilitated workshops on copyright and intellectual freedom, edited the Journal of Access Services, and published books and articles of interest to access services.

Critical Appraisal of the Literature ~~CANCELED**~~**

Thursday, April 6, 2006 – 1:30 pm – 5:30 pm

4 hour (4 CEU) - \$70.00

Instructor: helen-ann brown

Now that you've expertly searched for it, is the article any good? This is a course in using the Users Guides to the Medical Literature and critical appraisal checklists to critically appraise an article along with tips on how to conduct a critical appraisal session. Many of us are involved in teaching expert searching skills and searching in an evidence-based way and then we leave it to others to go through the appraisal process of the "golden article." In this hands-on, "Train the Trainer" format, a treatment and diagnosis article will be appraised. We'll realize the value of various appraisal checklists and even do some statistical calculations.

helen-ann brown, MLS, MS, AHIP, is the Acting Head of Information Services at the Weill Cornell Medical Library and a visiting adjunct professor at the Pratt Institute School of Information and Library Science. She holds a second masters degree from the University of Pennsylvania in the Dynamics of Organization. helen-ann's chief interests center around clinical librarianship and other outreach efforts, searching in an evidence-based way, teaching, and marketing of libraries and librarians. Over the past years she has presented CE courses, posters and papers at MLA Annual Meetings and MLA Chapter meetings on these topics. helen-ann has been honored to serve on and chair MLA committees, Hospital Libraries Section of MLA committees, Leadership and Management Section of MLA committees and New York-New Jersey Chapter of MLA committees. People find helen-ann to be energetic, enthusiastic and excited about everything she does.
